

SPRING OPENING REMINDERS

ALL OWNERS

- Have power on to equipment and electrical outlets. Water source available
- Leave following items out by the pool: (if not left out a return service charge will be added to the opening) *Ladder/Diving Board/Filter/Baskets/Plugs/Handles and Misc. Items for Equipment*
- If pool is not filled to operating level, homeowner will be responsible for opening skimmers when pool is full
- Pool Heater will be left operating at lowest setting
- Filters not cleaned in fall need a 2 week turnaround time from opening date
- Zeoclere media filters: cleaning of media suggested for longer media life

AUTO COVER OWNERS

- Fill pool up to operational level before removal
- Water removed from cover
- Cover Box – vacuum and remove winter debris

SALT GENERATOR OWNERS

- Phosphates and salt levels checked after minimum circulation of 48 hrs.
- Salt Cells cleaned

WATERMATIC OWNERS

- Leave sensors out for installation by Pool Technician
- Calibrate sensors – when pool water temp reaches 70 and water balanced

MESH COVER OWENRS

- Vacuum to waste to remove fine silt from winter.
